## EXPERIENCE

### TRIBEGROUP, PH, AU — *Senior Software Engineer*

2019 - PRESENT

**Technologies:** TypeScript, React, Redux, React Router, Styled Components, Redux Saga, Jest, React Testing Library, Python3, Flask, Flask-Restx, Flask-Admin, PostgreSQL

Built a marketplace for Creators to showcase their content and connect them with brands and agencies.

I am also responsible for managing the API, a separate service from the main backend, that serves metrics to the web app that gives brands an idea on how their campaign is performing.

### YOYO Holdings, PH — *Software Engineer*

2017 - 2018

**Technologies:** Python3, Django, Django REST Framework, PostgreSQL

Part of the team that made PopSlide, the first lock screen advertisement platform in SEA.

I am responsible for developing API endpoints that powers the PopSlide mobile app features such as Point Roulette, Daily Rewards and Leaderboards.

### PawnHero, PH — *Web Developer*

2016-2017

### Kalibrr, PH — *Associate Software Engineer*

2015-2016

## SKILLS
